407 ETR has budgeted over \$60 million in 2011 to build new lanes and make other improvements. Since 1999, the company has invested \$1.2 billion to expand and maintain the highway. New lanes completed in 2010 now bring the total number of individual lane kilometres on the highway to over 1,100.

“Significant investment in construction and expansion of the highway ensures we meet the objective of helping to relieve congestion on other GTA highways and local roads,” said Jose Tamariz, 407 ETR President and Chief Executive Officer. “Our dedication to customer service, keeping traffic moving and maintaining the highway in the best possible condition continues to give millions of customers a fast, safe and reliable trip.”
